INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF DEUTSCHE SECURITIES SAUDI ARABIA (A Saudi Closed Joint Stock Company)

Opinion

We have audited the financial statements of Deutsche Securities Saudi Arabia (A Saudi Closed Joint Stock Company) (the "Company"), which comprise the statement of financial position as at 31 December 2022, and the statement of income, statement of comprehensive loss, statement of changes in shareholders' equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statement present fairly, in all material respects, the financial position of the Company as at 31 December 2022 and its financial performance and its cash flows for the year then ended in accordance with the accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statement section of our report. We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) that is endorsed in the Kingdom of Saudi Arabia that is relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with this Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statement in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants and the provisions of Company's law and the by-laws, and for such internal control as management determines is necessary to enable the preparation of financial statement that are free from material misstatement, whether due to fraud or error.

INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF DEUTSCHE SECURITIES SAUDI ARABIA
(A Saudi Closed Joint Stock Company) (continued)

Responsibilities of Management and Those Charged with Governance for the Financial Statements (continued)

In preparing the financial statement, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charge with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial statement.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

**INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF DEUTSCHE SECURITIES SAUDI ARABIA
(A Saudi Closed Joint Stock Company) (continued)**

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

1. **ORGANISATION AND ITS ACTIVITIES**

Deutsche Securities Saudi Arabia (“the Company”) is a closed joint stock company (“CJSC”) incorporated in the Kingdom of Saudi Arabia under commercial registration no. 1010239773 dated 24/10/1428H (corresponding to 05/11/2008G). On 03/01/1429H (corresponding to 12/01/2008G). The Company received the license as a financial services company regulated by the Capital Market Authority (“CMA”). In 2018, the legal structure of the Company changed from a limited liability company to a CJSC.

The registered address of the Company is as follows:

Deutsche Securities Saudi Arabia
Floor 17, Al Faisaliah Tower
Olaya District
P.O. Box 301809, Riyadh 11372
Kingdom of Saudi Arabia

The Company is engaged in dealing, arranging, managing, advising and carrying out custody activities in accordance with the CMA Resolution no. 2007-36-3 dated 03/01/1429 corresponding to 12/01/2008 and license number.

2. **BASIS OF PREPARATION**

2.1 *Statement of compliance*

These financial statements have been prepared in accordance with the International Financial Reporting Standards (“IFRS”) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by the Saudi Organization for Certified Public Accountants (“SOCPA”) and in compliance with the applicable requirements of the Regulation of Companies in the Kingdom of Saudi Arabia and the By-Laws of the Company (collectively “IFRS as endorsed in KSA”).

2.2 *Basis of measurement and presentation*

These financial statements have been prepared on a historical cost basis, except employees’ end of service benefits liability, using the accrual basis of accounting and the going concern assumption. Employees’ end of service benefits liability is measured at present value of future obligations using the Projected Unit Credit Method.

Assets and liability balances are presented in the statement of financial position in the order of liquidity.

2.3 *Functional and presentation currency*

These financial statements are presented in Saudi Arabian Riyals (“SAR”), which is also the functional and presentation currency of the Company, except where indicated otherwise. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

2.4 *Critical accounting estimates and judgements*

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

2. BASIS OF PREPARATION (CONTINUED)

2.4 *Critical accounting estimates and judgements (continued)*

Significant areas where management has used estimates, assumption and exercised judgements are as follows:

Allowance for expected credit loss

The provision matrix is initially based on the Company's historical observed default rates. The Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

Employees' end of service benefits liability

Management, in coordination with independent qualified actuaries, are required to make assumptions regarding the defined benefit plans. The principal actuarial assumptions for the defined benefit plans are set out in Note 11 and include assumptions on the discount rate, increments, resignation rates, and inflation. Changes in the assumptions could affect the reported liability and the service cost.

Going Concern

As of the reporting date, the Company has accumulated losses of SAR 219.59 million (2021: SAR 207.2 million). The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

Estimated useful lives and residual life of property and equipment

The Company's management determines the estimated useful lives of its property and equipment for calculating depreciation on a straight-line basis over their estimated economic useful lives. This estimate is determined after considering the expected usage of the asset or physical wear and tear.

Significant judgement in determining the lease term of contracts with renewal options

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

Leases - Estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the stand-alone credit rating).

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(i) *The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, except for the impact of the New and amended standards and interpretations mentioned in note (4) to the financial statements.*

(a) *Financial instruments*

i) *Financial assets*

The Company initially recognizes financial assets and financial liabilities on the date on which they are originated. All other financial instruments (including regular-way purchases and sales of financial assets) are recognized on the trade date, which is the date on which the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured initially at fair value plus, for an item not at FVTIS, transaction costs that are incremental and directly attributable to the acquisition or issue of the financial asset or financial liability, such as fees and commissions. Transaction costs of financial assets and financial liabilities carried at FVTIS are expensed in the statement of income.

IFRS 9 requires all financial assets to be classified and subsequently measured at either amortized cost or fair value. The classification depends on the business model for managing the financial asset and the contractual cash flow characteristics of financial asset, determined at the time of initial recognition.

Financial assets are classified into the following specified categories under IFRS 9:

- Debt instruments at amortized cost;
- Debt instruments at fair value through other comprehensive income (“FVOCI”), with gains or losses recycled to profit or loss on derecognition;
- Equity instruments at FVOCI, with no recycling of gains or losses to profit or loss on derecognition; and
- Financial assets at fair value through income statement (“FVTIS”).

As at 31 December 2022 and 2021, the Company only has financial assets classified and measured at amortized cost.

Financial assets classified as amortized cost

Debt instruments that meet the following conditions are subsequently measured at amortised cost less impairment loss (except for debt investments that are designated as at fair value through profit or loss on initial recognition):

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

If a financial asset does not meet both of these conditions, it is measured at fair value.

The Company makes an assessment of a business model at portfolio level as this best reflects the way the business is managed and information is provided to management. In making an assessment of whether an asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows, the Company considers:

- Management’s stated policies and objectives for the portfolio and the operation of those policies in practice;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;
- How management evaluates the performance of the portfolio;

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) *Financial instruments (continued)*

(i) *Financial assets (continued)*

Financial assets classified as amortized cost (continued)

- Whether the management's strategy focus on earning contractual commission income;
- The degree of frequency of any expected asset sales;
- The reason for any asset sales; and
- Whether assets that are sold are held for an extended period of time relative to their contractual maturity or are sold shortly after acquisition or an extended time before maturity.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company will consider the contractual terms of the instrument. This will include assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

Income is recognised on an effective yield basis for debt instruments measured subsequently at amortised cost. Finance income is recognised in the statement of income.

Debt instruments that are subsequently measured at amortised cost are subject to impairment.

Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses ("ECL") on debt instruments that are measured at amortized cost. The amount of ECL reflects changes in credit risk since initial recognition of the respective financial instrument.

The Company applies the simplified approach to calculate impairment on its financial assets at amortized cost, whenever applicable and this always recognizes lifetime ECL on such exposures. ECL on these financial assets are estimated using net flow rate method based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The Company recognises impairment loss, if any, in the statement of income with a corresponding adjustment to their carrying amount through a loss allowance account.

Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset or substantially all the risk and rewards of ownership to another entity. If the Company neither transfer nor retains substantially all the risks and reward of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and associated liability for amounts it may have to receive or pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and recognises a collateralised borrowing for the proceeds received

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(a) *Financial instruments (continued)*

(ii) *Financial liabilities*

Financial liabilities carried at amortized cost have been classified and measured at amortized cost using the effective yield method.

All financial liabilities of the Company is classified and carried at amortized cost.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

(b) *Offsetting*

Financial assets and financial liabilities are offset and the net cash amount presented in the statement of financial position, when, the Company currently has a legally enforceable rights to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(c) *Property and equipment*

Property and equipment are stated at cost less accumulated depreciation and any impairment in value. Cost includes expenditure that is directly attributable to the acquisition of the items.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of income when the asset is derecognised.

Subsequent expenditure are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Normal expenditures for repair and maintenance are charged to the statement of income.

The residual values, useful lives and methods of depreciation of property and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. In case of reversal of impairment loss, impairment loss is recognised in statement of income to the extent that, what the depreciated historical cost would have been if the impairment had not been recognised.

The cost less estimated residual value of property and equipment is depreciated on a straight line basis over the estimated useful lives of the assets as follows:

Leasehold improvements	5 years or lease period whichever is shorter
Furniture and fixtures	5-10 years
Computer and office equipment	3-5 years

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) *Accrued expenses and other payables*

Accrued expenses and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method.

(e) *Employees' end of service benefits liability*

The liability for employees' end of service benefits, being a defined benefit plan, is calculated by independent actuaries using the projected unit credit method with actuarial valuation being conducted at end of annual reporting period. The related liability recognised in the statement of financial position is the present value of the end of service benefits obligation at the end of the reporting period.

Current service cost and the commission expense arising on the end of service benefit liability are recorded in the statement of income. Re-measurement of defined benefit liability arising from changes in actuarial assumptions and experience adjustments, which comprise of actuarial gains and losses, are recognised immediately in the other comprehensive income in the period in which they arise.

The discount rate used is determined based on the Company's external actuary's rate model which is based on high quality corporate bonds that have terms to maturity approximating to the estimated term of the post-employment benefit obligations.

(f) *Income tax*

Current tax

Income tax expense comprises current and deferred tax, which is recognised in the statement of income and is computed in accordance with income tax regulations as applicable in the Kingdom of Saudi Arabia.

Current tax is the expected tax payable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of asset and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on laws that have been enacted or substantively enacted by the reporting date. Deferred tax liability is recognised for all temporary differences. Deferred tax asset is recognised for unused tax losses and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets of SR 34.6 million have not been recognized as at 31 December 2022, on a prudent basis. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(g) *Provisions*

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made of the amount of obligation.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) *Value-added tax ("VAT")*

Revenues, expenses and assets are recognized net of the amount of VAT, except for:

- where the VAT incurred on a purchase of assets or services is not recoverable from the tax authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- in case of receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from or payable to the tax authority is classified as an asset or a liability, respectively, in the statement of financial position.

(i) *Accounting for leases*

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The right-of-use asset is amortized over the shorter of the asset's useful life and the lease term on a straight-line basis.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate
- amounts expected to be payable by the lessee under residual value guarantees
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate is used, being the rate that the lessee would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions. The Company uses incremental borrowing rate as a discount factor to compute the present value of lease liability.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

The Company applies the short-term lease recognition exemption to its short-term leases of equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

(j) *Statutory reserve*

In accordance with Company's by-laws and the Regulations for Companies in the Kingdom of Saudi Arabia, the Company is required to transfer 10% of its net income every year to the statutory reserve until such reserve equals 30% of its share capital. This statutory reserve is not available for distribution to shareholders.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(k) *Impairment of non-financial assets*

The carrying amounts of the Company's non-financial assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit, or CGU"). The Company's corporate assets do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined for the CGU to which the corporate asset belongs.

An impairment loss is recognised if the carrying amount of an asset or its cash generating unit ("CGU") exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of income. Impairment losses in respect of non-financial assets recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

(l) *Revenue from contracts with customers*

The Company recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the Company. The revenue is recognised when the Company transfers the services to customers at an amount that the Company expects to be entitled to in exchange for those services.

The Company assesses its revenue arrangements against specific criteria to determine if it is acting as a principal or as an agent. The Company has concluded that it is acting as a principal in its revenue arrangements since it has exposure to the significant risks and rewards.

The Company applies the following five-step approach to revenue recognition:

- Step 1: Identify the contract with the customer
- Step 2: Identify the separate performance obligations under the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to separate performance obligations
- Step 5: Recognise revenue when (or as) each performance obligation is satisfied

Identify the contract with the customer

The Company carefully evaluates the terms and conditions of the contracts with its customers because revenue is recognised only when performance obligations in contracts with customers are satisfied. A change in the scope or price (or both) of a contract is considered as a contract modification and the Company determines whether this creates a new contract or whether it will be accounted for as part of the existing contract.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) *Revenue from contracts with customers (continued)*

Identify the separate performance obligations under the contract

Once the Company has identified the contract with a customer, it evaluates the contractual terms and its customary business practices to identify all the promised services within the contract and determine which of those promised services (or bundles of promised services) will be treated as separate performance obligations.

The Company assess the services promised in a contract with a customer and identifies as a performance obligation either a service that is distinct; or series of distinct services that are substantially the same and that have the same pattern of transfer to the customer (i.e. each distinct service is satisfied over the time and the same method is used to measure progress).

A service (or bundle of services) is distinct if the customer can benefit from the service on its own or together with other readily available resources (i.e., the service is capable of being distinct) and the service is separately identifiable from other promises in the contract (i.e., the service is distinct within the context of the contract).

The Company provides management services to its customers which are generally provided continuously over the contract period. Accordingly, the services in these contracts generally represent a single performance obligation. Fees charged for managing mutual funds are recognised as revenue rateably as the services are provided.

Determine the transaction price

The Company determines transaction price as the amount which it expects to be entitled. It includes an estimate of any variable consideration, the effect of a significant financing component (i.e., the time value of money), the fair value of any non-cash consideration and the effect of any consideration paid or payable to a customer (if any). Variable considerations are limited to the amount for which it is highly probable that a significant reversal will not occur when the uncertainties related to the variability are resolved.

Allocate the transaction price to separate performance obligations

Once the performance obligations have been identified and the transaction price has been determined, transaction price is allocated to the performance obligations, generally in proportion to their stand-alone selling prices (i.e., on a relative stand-alone selling price basis). When determining stand-alone selling prices, the Company is required to use observable information, if available. If stand-alone selling prices are not directly observable, the Company makes estimates based on information that is reasonably available.

Satisfaction of performance obligations

Revenue is recognised only when the Company satisfies a performance obligation by transferring control of a promised service to the customer. Control may be transferred over time or at a point in time. Where a performance obligation is satisfied over time, the Company identifies the progress under the contract based on either of an input or output method which best measures the performance completed to date. The method selected is applied consistently to similar performance obligations and in similar circumstances.

The Company fulfills its performance obligations in its contracts with customers at a point in time, and hence it recognises revenue as and when it fulfills its obligations under contracts with customers.

Based on the above five steps, the revenue recognition policy for each revenue stream is as follows:

Brokerage income

Brokerage income is recognised when the related transactions are executed on behalf of the customers at the price agreed in the contract with the customers, net of discounts and rebates. The performance obligation of the Company is satisfied when the Company carries out the transaction, which triggers immediate recognition of the revenue, as the Company will have no further commitments.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(l) *Revenue from contracts with customers (continued)*

Fee income

Fee from banking services are recognized on an accrual basis when the service has been provided.

Service fees

Service fees are recognized based on the applicable service contracts, usually on a time-proportionate basis.

Finance income on term deposits

Finance income for all interest-bearing financial instruments are recognised in the statement of income using the effective interest rate basis

(m) *Expenses*

Expenses are measured and recognised as a period cost at the time when they are incurred. Expenses related to more than one financial period are allocated over such periods proportionately.

(n) *Foreign currency*

Transactions in foreign currencies are translated into SAR at the exchange rate at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into SAR at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in foreign currencies are also translated into SAR at the exchange rate at the reporting date.

Foreign currency differences arising on translation are recognised in the statement of income as net foreign exchange gains or losses, except for those arising on financial instruments at FVTIS, which are recognised as a component of net gain from financial instruments at FVTIS.

(o) *Assets held in trust or in a fiduciary capacity*

Assets held in trust or in a fiduciary capacity by the Company are not treated as assets of the Company and accordingly are treated as off-balance sheet items in these financial statements.

4. NEW AND AMENDED STANDARDS AND INTERPRETATIONS

(i) *New and amended standards and interpretations*

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2022. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16

In May 2020, the IASB issued Property, Plant and Equipment — Proceeds before Intended Use, which prohibits entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment. The amendments are not expected to have a material impact on the Company.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

4. NEW AND AMENDED STANDARDS AND INTERPRETATIONS (CONTINUED)

Onerous Contracts – Costs of Fulfilling a Contract – Amendments to IAS 37

In May 2020, the IASB issued amendments to IAS 37 to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022. The Company will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendment.

IFRS 9 Financial Instruments – Fees in the ‘10 per cent’ test for derecognition of financial liabilities

As part of its 2018-2020 annual improvements to IFRS standards process the IASB issued amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted. The Company will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendments are not expected to have a material impact on the Company.

(ii) *Standards issued but not yet effective*

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company’s financial statements are disclosed below. The Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

Amendments to IAS 1: Classification of Liabilities as Current or Non-current

In January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after 1 January 2024 and must be applied retrospectively. The Company is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

4. NEW AND AMENDED STANDARDS AND INTERPRETATIONS (CONTINUED)

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2

In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to IAS 1 are applicable for annual periods beginning on or after 1 January 2023 with earlier application permitted. Since the amendments to the Practice Statement 2 provide non-mandatory guidance on the application of the definition of material to accounting policy information, an effective date for these amendments is not necessary.

The Company is currently revisiting its accounting policy information disclosures to ensure consistency with the amended requirements going forward.

Definition of Accounting Estimates - Amendments to IAS 8

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the entity.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to IAS 12

In May 2021, the Board issued amendments to IAS 12, which narrow the scope of the initial recognition exception under IAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognised in the financial statements (and interest expense) or to the related asset component (and interest expense). This judgement is important in determining whether any temporary differences exist on initial recognition of the asset and liability.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the entity.

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

19. FINANCIAL RISK MANAGEMENT (CONTINUED)

The Group has exposure to the following risks arising from financial instruments:

- Market risk
- Credit risk
- Liquidity risk
- Operational risk

19.1 Credit risk

Credit risk is the risk that one party will fail to discharge an obligation and may cause the other party to incur a financial loss. The Company is exposed to credit risk mainly arising from cash and cash equivalents, due from related parties and Custody Fees Receivables.

The Company's risk management policies and processes are designed to identify and analyse risk, to set appropriate limits and controls, and to monitor the risks and adherence to limits by means of timely and reliable management information data.

The Company's maximum exposure to credit risk without taking effect of collateral amounts is as follows:

	<i>31 December</i> <u>2022</u>	<i>31 December</i> <u>2021</u>
Cash and cash equivalents	26,843	67,549
Term deposit	300,000	300,000
Due from related parties	20,848	7,810
Custody Fees Receivable	1,622	625
Margin Deposit (refer note 7)	16,371	-
	<u>365,684</u>	<u>375,984</u>

Based on management assessment, the Company has limited exposure to credit risk due to the following:

- Cash and cash equivalents* are maintained with banks having credit ratings of A1 stable as per the latest available report from Moody's Investor Service.
- Custody Fees Receivable* represents mainly fees receivables from corporate clients, which are considered as low credit risk by the Company.
- Due from related parties* is related to agreements with Deutsche Bank AG (Head Office), which provide for an agreed basis for sharing of revenues on jointly executed projects and recovery of expenses incurred on such projects as approved by the Company's management.

19.2 Market risk

a) Foreign exchange risk

Foreign exchange risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

As at 31 December 2022, the Company had foreign currency exposures of Saudi Arabian Riyal equivalent of 2.05 million. These exposures were managed in accordance with the company's FX management process.

The Company manages exposure to the effects of fluctuations in prevailing foreign currency exchange rates on its financial position and cash flows. The Company did not undertake significant transactions in currencies other than Saudi Arabian Riyals, US Dollars and Euros during the year. The rate of exchange for conversion of Saudi Arabian Riyal to the US Dollar is pegged and therefore the company is not exposed to currency risk on USD based transaction.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

19. FINANCIAL RISK MANAGEMENT (CONTINUED)

19.2 Market risk (continued)

a) Foreign exchange risk (continued)

At the end of the year, the Company had the following net exposures denominated in foreign currencies:

	<i>Long / (Short)</i>	
	<i>31 December</i>	<i>31 December</i>
	<i>2022</i>	<i>2021</i>
Euro	511	16,904
US Dollar	1,765	1,809
Other	(224)	(2,138)

b) Interest rate risk

Interest rate risk arises from the possibility that the changes in interest rates will affect either the fair values or the future cash flows of financial instruments.

As the Company does not have interest bearing financial assets and liabilities, except for the time deposit which carries a fixed interest rate, it is not exposed to any interest rate risk.

19.3 Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its net funding requirements. The Company monitors and manages the liquidity structure of its assets and liabilities so as to ensure that cash flows are sufficiently balanced and that sufficient liquid funds are maintained to meet liquidity requirements.

The tables below show the expected maturity profile of the assets and liabilities:

19.4 Operational risk

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the processes, technology and infrastructure supporting the Company's activities either internally or externally at the Company's service provider and from external factors other than credit, liquidity, currency and market risks such as those arising from the legal and regulatory requirements.

The Company's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns to shareholders.

The primary responsibility for the development and implementation of control over operational risks rests with the Risk and Compliance functions.

20. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value for financial instruments traded in active markets is based on quoted market prices at the close of trading on the financial reporting date. Instruments for which no sales was reported on the valuation day are valued at the most recent bid price.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

When measuring the fair value the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

DEUTSCHE SECURITIES SAUDI ARABIA

(Closed Joint Stock Company)

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st December 2022

20. FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at 31 December 2022 and 2021, no financial assets or liabilities were measured at FVTIS or FVOCI.

There are no financial assets and financial liabilities carried at fair value. Carrying value of financial assets such as cash and cash equivalents, due from related parties, Custody Fees Receivables, other current assets and financial liabilities approximate their fair value due to them being short term in nature. Lease liabilities are measured at Company's incremental borrowing rate which are derived based on external reference rates and internal factors which are used in calculating the present value of lease payment stream, that approximates fair value of the liability.

There were no transfers between levels of fair value hierarchy during the year ended 31 December 2022 and 2021.

21. CAPITAL ADEQUACY DISCLOSURES

The CMA has issued Prudential Rules ("the Rules") dated 17 Safar 1434H (corresponding to 30 December 2012). According to the Rules, the CMA has prescribed the framework and guidance regarding the minimum regulatory capital requirement and its calculation methodology as prescribed under these Rules. In accordance with this methodology, the Company has calculated its minimum capital required and the capital adequacy ratios as follows:

	<u>31 December</u> <u>2022</u>	<u>31 December</u> <u>2021</u>
Capital Base:		
Tier 1 Capital	316,497	329,617
Tier 2 Capital	-	-
Total Capital Base	316,497	329,617
Minimum Capital Requirement:		
Market Risk	126	244
Credit Risk	13,388	15,064
Operational Risk	12,015	11,785
Total Minimum Capital Required	25,529	27,093
Capital Adequacy Ratio:		
Total Capital Ratio (time)	12.40	12.17
Surplus in Capital	290,969	302,524

- a) Capital Base of the Company comprise of Tier-1 capital only which consists of share capital, accumulated losses, and statutory reserve adjusted with deferred tax assets.
- b) The minimum capital requirements for market, credit and operational risk are calculated as per the requirements specified in the Part 3 of the Prudential Rules issued by the CMA.
- c) The Company's business objectives when managing capital adequacy is to comply with the capital requirements set forth by the CMA to safeguard the Company's ability to continue as a going concern, and to maintain a strong capital base.
